DESIGN

Discovery 4. Bold, flexible and luxurious. Instantly recognisable as a Land Rover, it features a progressive, contemporary exterior and an attitude that gives it a refined, modern presence off-road and on-road.

Award-winning Discovery 4 is consistently recognised the world-over by journalists and the motoring media for its class-leading abilities. In fact, to date Discovery 4 and Discovery 3, together, have won more than 200 prestigious accolades.

With its distinctive profile, Discovery 4 has always been iconic. Key design features, such as stunning jewel-like rear lamps, make it unquestionably sophisticated.

ALL CONDITIONS

Whatever the surface, Discovery 4 helps take it on with confidence. The Terrain Response® system, standard on Discovery 4, gives access to over 60 years of Land Rover 4x4 expertise and state-of-the-art dynamic technology.

Dynamic performance on-road. Discovery 4 features advanced technology that helps keep the driver connected with the road and provides an enhanced, more engaged and entertaining drive. It makes getting behind the wheel and heading for the open road pure pleasure.

GENERAL DRIVING

GRASS/GRAVEL/SNOW

MUD & RUTS

SAND

ROCK CRAWL

Cruising on tarmac, driving over grass, gravel or snow, taking on mud and ruts, crossing sand and crawling over rocks. Terrain Response® is an off-road driving expert, helping Discovery 4 take on almost any surface with confidence. Switch the conveniently positioned Terrain Response control and Discovery 4's engine, transmission, suspension, throttle and traction settings reconfigure for optimum driveability in all conditions.

Gradient Acceleration Control takes Land Rover's helpful technology to a new level; enhancing the standard Hill Descent Control. Gradient Acceleration Control helps reduce, and smooth out the effects of the sudden initial acceleration that can occur when the vehicle enters a steep gradient.

Short front and rear overhangs. Exceptional ground clearance. Engine power and torque. They all make major contributions to Discovery 4's superior off-road capability. And help enable maximum manoeuvrability over some of the most difficult terrains.

PERFORMANCE

Discovery 4 offers a choice of three engines, each built to satisfy different driving priorities; whether improved fuel economy or power and performance is paramount.

Engines benefit from the latest e_TERRAIN TECHNOLOGIES, specifically engineered to reduce CO₂ emissions and help improve fuel consumption. The Intelligent Power System Management includes Smart Regenerative Charging ensuring that the battery is charged when it's most economical to do so. Idle speeds are reduced and a 'metering mode' is added to the diesel fuel injection system; delivering fuel at the exact rate needed - no more, no less.

TDV6 3.0 ADVANCED SEQUENTIAL TURBO DIESEL ENGINE

Low-flow injection 155kW (211PS) LR-TDV6 with eight-speed Drive Select transmission and steering wheel mounted Paddle Shift helps to achieve 230g/km CO₂ emissions and improved fuel economy.

SDV6 3.0 ADVANCED SEQUENTIAL TURBO DIESEL ENGINE

The 183kW (249PS) LR-SDV6 3.0 diesel engine with eight-speed Drive Select transmission and steering wheel mounted Paddle Shift uses a sequential mode boosting system to increase the air density entering the engine's cylinders. This enables a correspondingly greater amount of fuel to be injected for increased power output. It also uses the latest materials and sequential turbochargers to optimise responsiveness by delivering increased torque at very low engine revolutions.

LR-V8 PETROL ENGINE

The 276kW (375PS) LR-V8 petrol engine provides outstanding power, torque and refinement, harnessing the latest technology to deliver outstanding driveability and performance. With a torque-activated dual independent variable camshaft phasing system, it offers an immediate driver-focused reaction to throttle inputs and driving circumstances.

TOWING

Optional Tow Assist, as part of the Surround Camera System (standard on Discovery 4 V8), is a next-generation reversing aid that predicts the rearward trajectory of both vehicle and trailer. This helps the driver perform more accurate manoeuvres and is selected from the Touch-screen menu. Wide-view cameras on the vehicle give a clear field of vision; guidelines are superimposed over the resulting image to highlight the predicted reversing path for vehicle and trailer.

Trailer Stability Assist* (TSA), standard on all Discovery 4 models, is designed to detect potentially dangerous trailer oscillations by monitoring vehicle behaviour such as slight swings in response to trailer movements. It can initiate engine torque reduction and intervenes using the brakes to bring vehicle and trailer back under control. Optional Tow Hitch Assist helps hitching a trailer to the tow bar, by using on screen representation of views from the rear view camera, to show the driver the positions of the tow bar and trailer.

INTERIOR

COMMAND DRIVING POSITION

Discovery 4 features the legendary Land Rover Command Driving Position, which helps give better visibility over the traffic ahead for spotting hazards and helps parking and off-road driving. The Command Driving Position also brings a sense of control and reduces stress and fatigue as all key controls are close to hand and information is easy to read.

LUXURY FINISHES

Discovery 4's sumptuous, tactile interior provides superb levels of craftsmanship and comfort. Meticulous attention to detail is without compromise. The seats, for example, provide outstanding support during long journeys. Windsor leather seats* include electrically adjustable seat bolsters providing the driver with added comfort and side support. Materials are truly premium, creating a superior ambience of quality. Fine touches, such as double stitching on the facia, are unambiguous expressions of the vehicle's prestige.

STADIUM SEATING

First class accommodation for everyone and every thing. Inside Discovery 4, no one travels second class. Making the passenger experience sublime, thanks to Discovery 4's bold, innovative design and upright side profile, head, shoulder and leg room are amongst the best in class. Stadium seating, with up to seven full-size adult seats, ensures that all occupants share clear views of the surrounding landscape. A priority is given to refinement, including helping the reduction of noise intrusion and the inclusion of high-quality materials.

LOADSPACE

Discovery 4 is every vehicle you'll ever need, providing the ultimate in versatility and capability. It can transport driver, six passengers, their luggage and a loaded trailer with total ease along highway and country lane.

The flexible, versatile seating layout provides multiple configurations to suit almost every conceivable use, and the second and third rows of seats* can be folded independently of each other.

Monday: Airport

Tuesday: Band practice

Wednesday: School bus

Thursday: Rugby practice

Friday: Night out at the theatre

It's the weekend...

INFOTAINMENT

Designed to make the driving experience effortless. The full colour Touch-screen, standard on Discovery 4 HSE and Discovery 4 V8, provides all audio and navigation controls and is easy to use. It reduces the number of conventional controls required which adds to the premium ambience of the interior.

A choice of in-car entertainment options are available including **harman/kardon**® LOGIC7® Premium system incorporating 'theatre-style' audio quality.

The centrepiece of driver information is the instrument panel with its five inch Thin Film Transistor (TFT) display, showing vehicle information, Infotainment system feedback and navigation directions.

SOUND AND VISION

The Discovery 4 Infotainment system features enhanced sound systems across the model range, the latest generation of electrical architecture that allows easier connection of external devices and WhiteFire® wireless technology, which works with the optional rear seat entertainment system*.

There are three entertainment systems available with Digital Audio Broadcasting and Bluetooth® phone connection and USB/iPod® connectivity as standard.

iPod is a registered trademark of Apple Inc., registered in the US and other countries.
The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Land Rover is under licence.
WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover is under licence.
*Not available on Discovery 4 TDV6 SE and standard on Discovery 4 V8.

To keep everyone on board amused, the optional rear seat entertainment system includes two eight inch screens in the back of the front seat headrests as well as a remote control. The system allows a multitude of listening and viewing options: CD/Audio via wireless headphones supplied as part of the equipment; DVD on the rear screens; the connection of iPod®/MP3 and games consoles; video playback of MP4 files stored on a USB memory device.

Vehicles equipped with a Navigation Hard Disc Drive include DVD Audio and MP3 DVD playback as well as a Virtual CD Auto Changer. The Virtual CD Auto Changer can save as many as ten albums in high-quality lossless format to the hard disc drive and provides track information for easy identification of CDs and tracks.

SAFETY

Safety features include Anti-lock Braking System (ABS), Emergency Brake Assist (EBA), which is designed to supply extra brake pressure in an emergency, and Electronic Traction Control (ETC) which helps maintain optimum grip.

There is also the option of Tyre Pressure Monitoring System (TPMS), designed to warn you of low tyre pressure. Dynamic Stability Control (DSC) and Roll Stability Control (RSC) work with the braking system and are designed to correct cornering, over or understeer and to help maintain stability at all times.

Up to eight airbags are fitted: the front seats have both front and side airbags with each seat row having its own curtain airbags.

*Accessory wheel rim only, 20 inch five-spoke – VPLAW002. To order the Land Rover Centre Cap please quote part number LR023301.

Please note: When choosing vehicles fitted with specific wheel and tyre combinations or optional wheels and tyres, your intended use of the vehicle should be considered. Wheels with larger diameters and lower profile tyres may offer certain styling or driving benefits, but may be more vulnerable to damage. Please discuss your requirements with your Land Rover Dealer.

DISCOVERY 4 TDV6

With enhanced handling and large wheels, this model delivers versatility and practicality with comfort and refinement.

DISCOVERY 4 SDV6 SE

Increased comfort and intuitive technology makes this impressive vehicle equally at home on urban street, motorway or rutted track.

DISCOVERY 4 HSE

All the versatility and practicality you would expect from Discovery 4 with an added touch of luxury; whatever the situation you will never be out of place.

DISCOVERY 4 V8

This model delivers superior luxury combined with stunning design to make sure every journey is relaxed and every arrival is in style.

DISCOVERY 4 TDV6

Incredible power and versatility. Discovery 4 is designed to handle heavy loads and challenging environments with ease. Capable and comfortable. Possessing a definitive style, with body-coloured wheel arches and Oberon finish door handles it also features bright halogen headlamps, a Meteor trim finisher to fascia and doors and contemporary highlights such as the 4.2 inch colour centre console screen.

Discovery 4 TDV6 interior includes:

- Terrain Response® system
- Five cloth seats
- Leather steering wheel
- Meteor trim finisher to fascia and doors
- Five inch TFT display
- 4.2 inch colour centre console screen
- Land Rover audio system (80W) with eight speakers, radio and single slot CD player with auxiliary input
- Bluetooth® phone connection
- iPod and USB connectivity
- Automatic climate control
- Cruise control
- Front footwell lamps
- Rear parking aid
- Loadspace cover

Discovery 4 TDV6 exterior includes:

- Electronic air suspension
- Body-coloured wheel arches and rear bumper
- Oberon finish door handles
- 19 inch seven split-spoke alloy wheels
- Selectable ride height
- Trailer Stability Assist
- Automatic halogen headlamps with headlamp powerwash jets
- Front fog lamps
- Rain sensing windscreen wipers
- Solid paint

DISCOVERY 4 SDV6 SE

Town or country, Discovery 4 SDV6 SE is the smart, practical complement to the modern lifestyle. Superb drivability plus true Land Rover capability and versatility with sophisticated 19 inch alloy wheels combine with seven electric grained leather seats available in Almond or Ebony.

19 inch ten-spoke alloy wheel

Discovery 4 SDV6 SE includes the following in addition to the features listed for Discovery 4 TDV6.

Discovery 4 SDV6 SE interior includes:

- Seven grained leather seats (includes third row load space accessory socket, third row head curtain airbags, complex 35:30:35 second row seats, third row map lamps and third row seats)
- Electric seats (includes driver and passenger armrest, power lumbar driver seat and manual lumbar passenger seat, electric driver's and passenger's seats adjustment including squab recline, cushion, cushion height and cushion tilt (eight/eight-way))

Discovery 4 SDV6 SE exterior includes:

- 19 inch ten-spoke alloy wheels
- Automatic halogen signature headlamps with headlamp powerwash jets
- Adjustable, heated, powerfold exterior mirrors

Discovery 4 SDV6 SE engines available:

- 3.0 litre SDV6 183 kW

DISCOVERY 4 BLACK DESIGN PACK

Discovery 4 Black Design Pack has its own, special character. The exterior sports a Narvik Black finish to the grille vanes, fender vents, mirror caps and door handles and satin Black extended roof rails. There is a choice of optional 19 inch seven split-spoke Black alloy wheels or 20 inch five-spoke Black alloy wheels.

Discovery 4 Black Design Pack includes:

- Grille vanes and side fender vents in Narvik Black
- Narvik Black door handles
- Narvik Black mirror caps
- Satin Black extended roof rails
- Land Rover bonnet and tailgate Discovery 4 badges in Black, with no engine or derivative badge
- Privacy glass
- Option of 19 inch seven split-spoke Black alloy wheels or 20 inch five-spoke Black alloy wheels
- Black wheel centre cap featuring a Black and Silver Land Rover oval

Grille vanes in Narvik Black

Side fender vents in Narvik Black

19 inch seven split-spoke Black alloy wheel

20 inch five-spoke Black alloy wheel

TECHNICAL FEATURES AND SPECIFICATION

AUTOMATIC HEADLAMPS WITH HIGH BEAM ASSIST*. Detect vehicle headlamps/tail lights and dip the high beam until the light source is out of range. The system is able to distinguish between automotive and non-automotive light sources.

ADAPTIVE FRONT LIGHTING*. For more relaxed night-time driving, Adaptive Lighting varies the light cast ahead of the vehicle so that the beams follow the curve of the road.

*Optional on some derivatives, not available on Discovery 4 TDV6 SE

DYNAMICS AND BRAKES. Driver-focused on-road dynamics. The result is car-like handling that does not compromise extreme axle articulation and, consequently, the off-road ability of the vehicle.

SPLIT TAILGATE. Make light work of difficult loads with Discovery 4's two-piece, asymmetric tailgate design. Both upper and lower tailgates are made from resilient lightweight aluminium. The tailgate gives impressive access to the rear of the vehicle and comes into its own when loading large, bulky or heavy objects. The asymmetric portion of the lower tailgate provides a reduced reach-in distance when open and a lower load height when closed.

TERRAIN RESPONSE® SYSTEM. Optimises the vehicle set-up for virtually all on-road or off-road driving situations, with five different settings to suit different terrains such as Grass/Gravel/Snow, Sand, Mud and Ruts and Rock Crawl.

The above images show the Terrain Response selectors. Please note that the dial form is available on the 5.0L Petrol engine only. The slider form is available on 3.0L diesel engines only.

GRADIENT RELEASE CONTROL. Patented Land Rover system works with Hill Descent Control (HDC®), across terrains such as rock, gravel and sand, for more controlled, confident descents. Works in reverse and first gear.

STEERING WHEEL CONTROLS. Steering wheel with ergonomically designed switch layout for driver information and remote audio controls. Cruise control, telephone and heated steering wheel controls are optional depending on the vehicle derivative.

PARKING AID – REAR VIEW CAMERA*. Camera provides rearward view from the full colour Touch-screen, works in conjunction with rear parking aid.

SURROUND CAMERA SYSTEM*. Comprises five digital cameras to provide near 360 degree view surrounding vehicle to aid low-speed manoeuvring via the full colour Touch-screen. Can be customised to provide a single camera view or multiple images. Functions include: Parking Aid – Rear View Camera, All Round Vision, Junction View. Also includes Tow Assist and Tow Hitch Assist.

*Optional.

AIR SUSPENSION. Four-corner independent air suspension features variable ride height and electronic cross-linking for a constant level ride height irrespective of load distribution. Ride height can be raised up to 125mm to clear obstacles or lowered by 50mm for easy access and loading.

ELECTRIC PARKING BRAKE (EPB). A switch next to the eight-speed Drive Select or the six-speed CommandShift® is designed to electrically apply and release the parking brakes on the rear wheels. A simple pull of the lever applies the brake manually and a press releases it. The parking brake will also release automatically upon drive away.

INSTRUMENT PANEL. With five inch (12.7cm) TFT display for trip information, primary vehicle information and warnings.

'SAY WHAT YOU SEE' VOICE ACTIVATION. This helps the driver to use and interact more easily with Discovery 4's advanced systems by displaying voice commands on the Touch-screen. Displayed in a logical step-by-step format, these commands first show the different devices that can be controlled, for example phone, navigation or audio, and then a second stage shows the specific commands for the chosen device. Once the driver is familiar with the appropriate terms, both stages can be combined into a shortcut.

PUSH BUTTON START. Once the vehicle has been accessed using the remote transmitter, the device may be stored in a pocket or bag to allow starting without its use. The optional Keyless Entry system provides even greater convenience. When within close proximity of the vehicle along with the remote Compact Smart Key, simply open the door, get in and push the Start button.

WHITEFIRE®. This technology is a wireless system, discreetly housed in a unit in the vehicle's headlining, which allows the convenient use of cordless headphones with the optional rear seat entertainment system.

CORDLESS HEADPHONES. These WhiteFire® cordless headphones use powerful wireless technology to deliver outstanding audio performance to passengers using the rear seat entertainment system.

WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover is under licence.

THE PORTABLE AUDIO INTERFACE. Allows the connection to the in-car entertainment system of an iPod® with full track and search integration. An MP3 player or a mass storage device can also be connected via the USB port.

DAB RADIO (DIGITAL AUDIO BROADCAST)*. Provides a broader choice of content with digital sound quality. Available in selected markets.

iPod is a registered trademark of Apple Inc., registered in the US and other countries.

*Optional.

COMPACT SMART KEY. With its real metal trim and attractive 'pebble-like' appearance, the Compact Smart Key provides full functionality with a more modern, more premium look and feel.

IN-CAR ENTERTAINMENT. Every model incorporates a system with a minimum of eight speakers, a colour display and the options of Bluetooth®, Digital Audio Broadcasting and USB/iPod® connectivity.

The **harman/kardon®** High-Line system has a powerful output of 380W and 11 speakers.

The **harman/kardon®** LOGIC7® Premium system boasts 17 speakers and increases power to an astonishing 825W for pure surround sound audio entertainment on the move.

The Bluetooth® word mark and logos are owned by the Bluetooth SIG, Inc. and any use of such marks by Land Rover is under licence.

harman/kardon® and LOGIC7® are registered trademarks of Harman International Industries, Incorporated.

REAR SEAT ENTERTAINMENT*. Eight inch screens in the back of the front seat headrests allow rear passengers to watch DVDs or play their own portable games console through the optional twin-screen entertainment system. This plays sound through individual WhiteFire® cordless headphones or from the optional **harman/kardon®** LOGIC7® Premium system incorporating premium 'theatre-style' audio quality.

Additional WhiteFire® cordless headphones (not shown) LR028886.

*Optional, not available on Discovery 4 TDV6 SE and standard on Discovery 4 V8.

harman/kardon® and LOGIC7® are registered trademarks of Harman International Industries, Incorporated. WhiteFire® is a registered trademark of Unwired Technology LLC and any use of such marks by Land Rover is under licence.

HARD DISC DRIVE NAVIGATION (HDD)*. Prompt access speed, graphics and display. HDD stores up to 100GB of data and navigation mapping can be upgraded via a Land Rover Dealer download.

Additional features available on HDD-equipped vehicles are DVD Audio and MP3 DVD playback and Virtual CD Auto Changer which saves up to ten albums (in uncompressed format) to the HDD and provides track information for easy identification of CDs and tracks.

*Optional on some derivatives, standard on Discovery 4 HSE and Discovery 4 V8.

ALPINE ROOF. Even the rearmost passengers enjoy a glass roof in Discovery 4 with the optional Alpine roof. The combined reflective properties of the glass panel and interior sunblinds keep everyone cool and the cabin light and airy.

FULL COLOUR TOUCH-SCREEN. Provides full control and functionality over integrated systems such as navigation, audio, entertainment systems, camera systems, 4x4 information and vehicle settings.

Height

Loadspace volume behind
1st row 2,558L seven seat (2,476L five seat)
2nd row 1,192L seven seat (1,260L five seat)
3rd row 280L seven seat

ACCESSORIES

Discovery 4 is so capable and adaptable it can get straight to work across a huge variety of vastly differing terrains, conditions and roles. Even so, some owners want to add their own stamp of individuality by tailoring their Discovery 4 to their specific needs with a range of stylish, practical accessories. Accessories that are tough, versatile and bring an opportunity for personalisation to Discovery 4. Importantly, these accessories can be added at any stage during the vehicle's life – not just when it's new. And remember, Land Rover Approved Accessories are designed and manufactured to the same exacting standards as the original equipment fitted to your vehicle.

Visit www.landrover.com.au for more information.

Vehicle shown left is accessorised with Side Protection Tubes in Stainless Steel, Aqua Sports Carrier and Silver Noble Mirror Caps.

Vehicle shown above is accessorised with Short Roof Rail Kit in Bright Finish, Side Protection Tubes in Stainless Steel, Body Side Mouldings with bright insert and a Stainless Steel Rear Bumper Tread Plate.

WARRANTY. A comprehensive manufacturer's warranty is a feature of every Land Rover vehicle and extends to any genuine Land Rover accessories fitted by a Land Rover Dealer. The warranty period for the vehicle is three years/100,000 kilometres. In addition, the paint surface is also covered for three years/100,000 kilometres and the body work covered for corrosion for six years.

LAND ROVER ROADSIDE ASSISTANCE. All Land Rover vehicles purchased in Australia benefit from complimentary Land Rover Roadside Assistance service for the length of the new car warranty. This covers you Australia-wide 24 hours per day every day. And because it is Land Rover Assistance, help will also be provided if you become bogged or disabled on roads that only four-wheel drives can travel.

CUSTOMER CARE. Land Rover Australia has a dedicated Customer Care Centre to assist owners who may have a general query. Owners seeking this level of assistance are invited to phone our Customer Care Centre on the toll-free number 1800 625 642 or email enquiries@landrovercustomers.com.au. Land Rover ownership includes a package of benefits designed to provide high standards of after sales care and support.

LAND ROVER FINANCIAL SERVICES. Just as Land Rover lets you tailor a vehicle to your specific requirements, we offer you the same service when it comes to finance. You can arrange to purchase and finance your Land Rover from the people who know it best - your Land Rover Dealer. Your Land Rover Business Manager can explain the full range of finance options available from Land Rover Financial Services and provide expert advice to help tailor a finance package to best suit your needs. To discover more about Land Rover Financial Services visit your nearest Land Rover Dealer, call 1800 037 711 or visit www.landrover.com.au for more information.

IMPORTANT NOTICE: Land Rover is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. Whilst every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and dealers are not agents of Land Rover by any express or implied undertaking or representation.

All Land Rover Approved Accessories fitted by a Land Rover Dealer within one month or 1,600 kilometres/1,000 miles (which ever occurs first) of the handover of a new registered vehicle will benefit from the same warranty terms and period of cover as the vehicle warranty. Accessories purchased outside of these parameters will be subject to a 12 month unlimited mileage warranty. All Land Rover Approved Accessories are rigorously tested to the same exacting standards as those applied to our vehicles. Performance in extreme hot and cold temperatures, corrosion resistance, impact and airbag deployment highlight some of the exhaustive product testing carried out to ensure accessories are both durable and importantly, continue to comply with current legislation.

All our accessories are designed to be an integral part of Land Rover vehicles. While many items such as roof carriers are simple to fit, some products require specialist tools and diagnostic equipment to ensure correct integration with the vehicle structure and electrical systems. These products vary from market to market, please consult your Land Rover Dealer who will be pleased to advise you on current specifications and any query you may have.

The colours reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any colour finish without notice. Some of these colours may not be obtainable in your country. Please check availability of colours and current specifications with your Land Rover Dealer. Distributors and dealerships are not agents of Land Rover and have absolutely no authority to bind Land Rover to any express or implied undertaking or representation.
